Why we remain weak and vulnerable

I will never invest in a management system that:

- a) Has no copies of documents listed on court docket
- b) Has no clear record of when filed court documents are due
- c) Does not know how to make a clear, simple and unambiguous argument about when to toll the statute of limitations.
- d) Cannot schedule creation of work product among 3 people
- e) Cannot produce essential documents in a timely manner
- f) Has no capacity to plan one or 2 weeks in advance

Obviously (see attached chart) people who have experienced a history with attorneys as we have SHOULD BE A BIT MORE CAREFUL AND LESS SLOPPY

The one person who is most responsible for these problems is Paul. There is no doubt about this.

Paul will not admit that he is at the very center of why these problems exist, and he is incapable of fixing the problems, so that leaves everyone TRAPPED IN MISMANAGEMENT.

That is a dangerous situation that allows us to be attacked (see chart). Right now Paul is the one who is responsible for leaving us vulnerable again.

The chart is a table with 3 columns: 'Attorneys', 'Strategies', and 'Methods'. It is divided into two main sections: 'Personal injury attorneys' and 'Legal representation of the firm'. The 'Personal injury attorneys' section has 3 rows: 'Robert Smith', 'John', and 'Michael'. The 'Legal representation of the firm' section has 3 rows: 'John', 'Michael', and 'Paul'. Each row contains text describing the attorney's strategies and methods, often with red highlights.

	Attorneys	Strategies	Methods
Personal injury attorneys	Robert Smith	... (text) (text) ...
	John	... (text) (text) ...
	Michael	... (text) (text) ...
Legal representation of the firm	John	... (text) (text) ...
	Michael	... (text) (text) ...
	Paul	... (text) (text) ...

Your not answering your phone.

I'd like to know if and when you are going to be sending me more PDF's to review and make changes to.

Because, I need to know when I can:

1. Return Moms spectrum equipment to lake Geneva - approx 2 hours during business hours
 2. Purchase and install sewage pump - approx. 1 day.
 3. Go shopping for food.
 4. Take time to unpack moms stuff and teach her where to find her stuff.
- Etc...

You get the idea, just need to know when it is safe to di the necessary things that need to be done so it doesn't interfere with court business.

FYI: Mr Talarico is filing a motion to extend time to answer Baudins motion to dismiss based on the fact that my live-in caretaker passed.

I thought I would also mention that my car is not running right.

Its running rough and dying when I slow down to come to a stop.

It started running rough when I was driving Scott to go back to work and started dying when I was on the phone with you the other day coming back from Mr Talarico's.

Not sure if it is water in the gas, a fuel filter or if the spark plugs need replacing.

I suspect its water in the fuel because it happened shortly after I filled the tank at a gas station I never used before (Thorntons in Fox lake) when I picked up Scott at the train last week.

Once I use enough fuel I will refill at a gas station I trust and we will see since I don't know when its safe to take the car into a mechanic.
