Additionally, in regards to this receipt, the chainsaw was on sale, it is one of their low end chainsaws and they do not have any camera footage from back that far. They did indicate that there was a rebate on the receipt and most likely, the person that purchased it was the one who filled out the rebate form but obviously, it's not 100%.

I'm not sure if Illinois Sales Tax is applied to the full normal price or the sale price so I didn't comment on it in the attached PDF.

Open the attached PDF to see my comments about some of the things we discussed.

Special note:

Since this was paid for in Cash and can't be tracked back to who actually purchased it, I wonder if MENARDS has records of who they paid the rebate check to?
