A simple list of things we need done before F1 discovery closes:

First, if Popovich is added as a defendant, doesn't that automatically extend F1 discovery?

No-brainer things we want subpoenaed:

- 1) Subpoena for signatures of all court reporters that signed depositions
- 2) Barch's depositions (Julia only asked for lists)
- 3) Accardo's case file
- 4) Audio recordings of court proceedings where attorneys cannot be identified

Depose court reporters whose signatures are forged

Use the forged exhibit 12 to depose Julia Williams

We need the complete Barch and Accardo case files to prove that there are no original certified depositions or any certified copies of depositions (only rough drafts and forged certification pages seem to exist)

In order to keep F1 discovery open, why not present the Julia Williams exhibit 12 forgery now?

Why not present signature forgeries?

We CANNOT let F1 discovery close or remain restricted without getting at least this information. That is totally unacceptable.

Reasons given to judge for subpoenas and depositions:

Accardo: Depositions he called only appear in case file in rough draft form. No original certified and no certified

copies can be found anywhere. There is no evidence that the court reporters listed on depositions were actually at the deposition.

Barch: Same reasons as Accardo.

Reasons given for Teresa Freeman deposition: Dulberg only saw her once, at his deposition. The woman he met appears to be about 20 years younger than the attorney listed as Teresa Freeman at ARDC.

If objections to reissuing subpoena to Accardo and getting more information from Barch case file is raised, we respond like this:

Clinton Law firm issued a forged Mast exhibit 12 to Dulberg, gave Dulberg a false reason of how they came in possession of exhibit 12, appears to have worked directly with Flynn by making alterations to exhibit 12.

I am building a witness chart (attached pdf) and need help figuring out what columns/headers/catagories are needed. Please advise in a phone call because I cannot access email when building charts due to version of software I have and that I have to boot into old operating system
Or you can email me a list of possible headers and call me to let me know so I can reboot and get it
I just realized I should be adding bates numbers for previous depositions

The evidence table was part of the most updated form of a pdf I called "Dulberg's Theory of Corruption"

The pdf and table was last updated on February 15, 2022 so it is our best description of the evidence we assembled as of February 15, 2022.

pdf is attached.

Also, you wrote a much more detailed version with bates numbers for the period from mid October, 2013 to the end of January, 2014.

It was written up as a supplemental pdf to the pdf and you have it somewhere on your machine.

This pdf together with the supplemental you already wrote up covers our best understanding of the evidence we had up to around February 15, 2022.

Ghost depositions, gagnon exhibit 1, forged signatures began to emerge around and after this time and are not included in the pdf.

I found your latest version of

"Supplemental to 'Dulberg's Theory of Corruption', covering the evidence of #10 and #11".

This is the best description of events from Oct 2013 to Feb 2014 with bates numbers. Attached.
